<b>SUBJECT</b>	<b>HOME WORK</b>
<b>COMPUTER</b>	<p>Solve both Set A and Set B of Unit Test–neatly in your Classwork Copy. Ensure that all questions are answered correctly with proper question numbering and presentation.</p> <p>Note: Complete the work neatly and revise the topics covered in the test for better understanding and practice.</p>
<b>ENGLISH</b>	<p>Complete your Assessment File and prepare one example each of Classified Advertisement, Poster Making, Debate Writing, and Speech Writing as per the formats taught in class.</p> <p>Note: Present your work neatly and creatively, following the correct format, with proper headings and attractive presentation.</p>
<b>HINDI</b>	<p>कक्षा में दिए परियोजना कार्य के बिंदुओं के आधार पर फाइल तैयार करें।</p>
<b>MATHS</b>	<p>Complete the notebook work of Chapters 1 and 2 along with all the relevant exercises from M.L. Aggarwal. Also, complete all the activities, worksheets, and experiments in the Mathematics Lab Manual.</p> <p>Note: Ensure that all work is completed neatly, properly organized, and updated in all respects.</p>
<b>BUSINESS STUDIES</b>	<p>Prepare a Project File on the topic "Importance of Business and Its Contribution to the Development of India during the 1800s, 1900s, and 2000s." The project should highlight the role of business in economic growth, industrial development, employment generation, trade, technological advancement, and nation-building across these three periods.</p> <p>Note: Include an introduction, historical overview, comparative analysis of the three eras, relevant pictures, charts, illustrations, and a conclusion. Present the project neatly and creatively with proper headings and subheadings.</p>

<b>ECONOMICS</b>	<p>Collect, organize, and present data on the topic "Need and Importance of Data in Economics." Prepare a project highlighting the significance of data in decision-making, planning, policy formulation, and economic development. Use various statistical tools such as tables, graphs, pie charts, bar diagrams, and charts to present and analyze the data effectively.</p> <p>Note: Include an introduction, objectives, data collection methods, graphical presentation, interpretation of data, conclusion, and relevant illustrations. The project should be neatly presented, informative, and creative.</p>
<b>ACCOUNTANCY</b>	<p>Solve all the practical questions on Accounting Equation (30 Questions) and Journal Entries (36 Questions) neatly in your notebook. Also, complete all the activities, worksheets, and practical work in the Accountancy Lab Manual.</p> <p>Note: Ensure that all solutions are presented systematically with proper formats, calculations, and narration wherever required. The Lab Manual should be completed and updated in all respects.</p>
<b>PHYSICAL EDUCATION</b>	<p>Learn and thoroughly revise all the chapters taught in class till date. Also, study and memorize the rules, regulations, measurements, and specifications related to your game specialization.</p> <p>Note: Students should be prepared for both theoretical and practical assessments based on the completed syllabus and their chosen sport.</p>

**Note: SUMMER VACATION WILL COMMENCE FROM 5TH JUNE 2026, THE SCHOOL WILL REOPEN ON 22ND JUNE 2026 (MONDAY).**

***!! Happy Holidays!!***
